## 2017: TRYGFONDEN WORLD RECORD FOR LIFE

# **TrygFonden**

### **LEARNINGS**

Community engagement goes hand in hand with structural changes and research

Communication and campagning can change the behavior of many people

Keep it simple – just do it!

#### THE LATEST RESEARCH SHOWS...

# **TrygFonden**

- 75% of survivors who had a job before OHCA return to work
- Survivors who received bystander CPR have a 40% better chance to return to work compared to those who did not receive bystander CPR

Source: Kristian Kragholm, The New England Journal of Medicine (2017)

- The number of patients who get defibrillated in public places has risen from 1.2% in 2001 to 15.3% in 2012
- We do not see the same improvement in cases of cardiac arrest in private homes

Source: Steen Møller Hansen, JAMA Cardiology (2017)

# Our newest initiative

### THE DANISH AED NETWORK

# HEARTRUNNER PROGRAM LAUNCH IN THE CAPITAL REGION

## **TrygFonden**

- A cooperation between TrygFonden and the Emergency Medical Services Copenhagen, The Capital Region of Denmark
- Heart runners are laypersons who volunteer to provide CPR or bring out AEDs when OHCA occur
- Heart runners download the app "TrygFonden Heart runner" and an alarm will sound from their smartphones when there is an OHCA nearby
- Largest Heart runner Program in Denmark
- Researchers will investigate whether the organizational and technical set-up contributes further to greater cardiac arrest survival outside the hospital
- 13,000 heart runners signed up within two months from launch
- Heart runners had already helped saving lives

### IMPORTANT LEARNING

## **TrygFonden**

5.700 hjerteløbere klar ved hjertestop

Klaus var netop gået på weekend, da en besked viste sig på telefonen: Snørede løbeskoene og sprang ud af døren

Forskning skal vise, om hjerteløbere kan redde liv

#### FAKTA: Tre ud af fire hjertestop sker derhjemme

De fleste hjertestop sker derhjemme, men chancen for at overleve er bedst, hvis det sker på åben gade.

Red liv: Sådan bliver du frivillig hjerteløber

så skal du have tonsvis af mod. Så er du klar til at

Droppede øl og snørede løbesko for at redde 57-

14. dat 2017 kt. 18s Seks bornholmske hjerteløbere har været i aktion

Siden den 1. september har seks bornholmske hierteløbere været i aktion. Hjerteløberne transporterer hjertestartere ud i, hvor der er

# Frivillige skal få flere til at overleve hjertestop i hjemmet

5700 personer har tilmeldt sig ordning, der skal bringe hjertestartere ud til folk med hjertestop i hjemmet.

Hjertestarterdagen afholdes i dag for femte gang i Danmark

Det er blandt andet TrygFonden, der står bag dagen

HJERTELØBER REDDEDE ALFS LIV

telefon - kort efter reddede han en

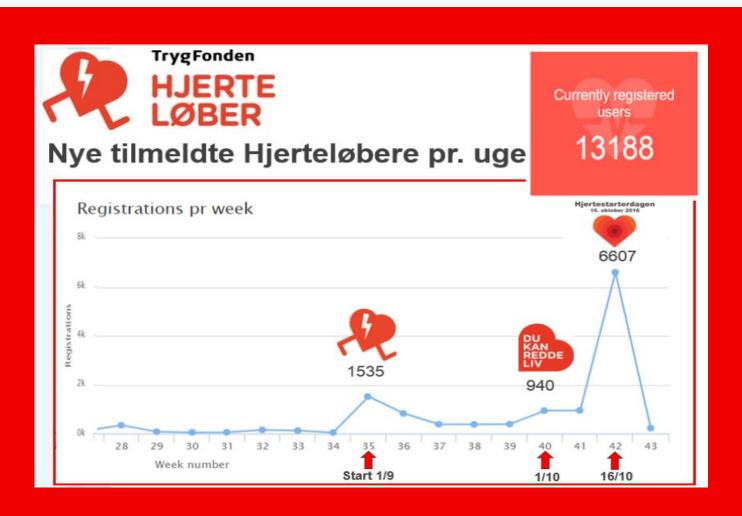

Frivillige skal få flere til at overleve hjertestop i hjemmet

Willy fik hjertestop: Det er fantastisk - de har reddet mit liv

#### **NEXT STEPS COULD BE...**

Heart runners all over Denmark to bring AEDs into private homes

More AEDs to be be registered and accessible 24/7

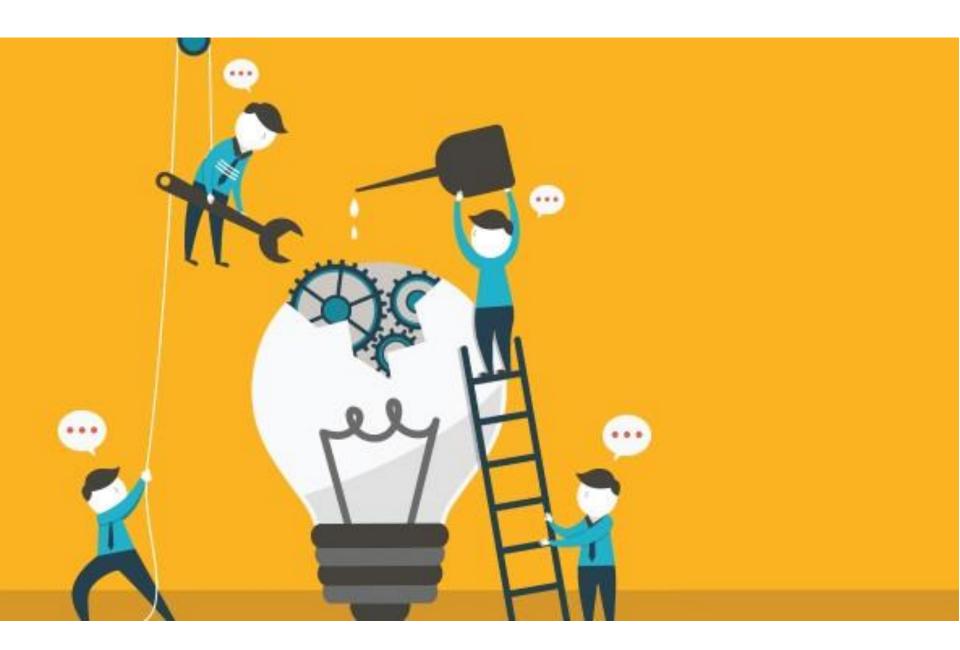

Up-dated recommendations from The Danish Health Authorities' on strategic locations for AEDs according to new research (work in progress)
