## Goal:

- Increase bystander response rates

## Possible hurdle:

- Reaching a critical threshold

## WINS

- Coordinated AED placements in the proceeding 3 years
- Established AED registry
- Promotion of Pulsepoint tied with CPR training (1,700+ trained)

## **PRELIMINARY RESULTS**

### **FEBRUARY – OCTOBER 2018**

- 9,000+ users
- Over 700 “CPR-needed” alerts sent
- Provincial sites are connected to research

## LESSONS LEARNED

- More widespread promotion
- More systematic recruitment in CPR/First Aid courses across agencies
- More public health education (CPR, AED, Good Samaritan Law)

# AUSTRALIA – ST. JOHN

---

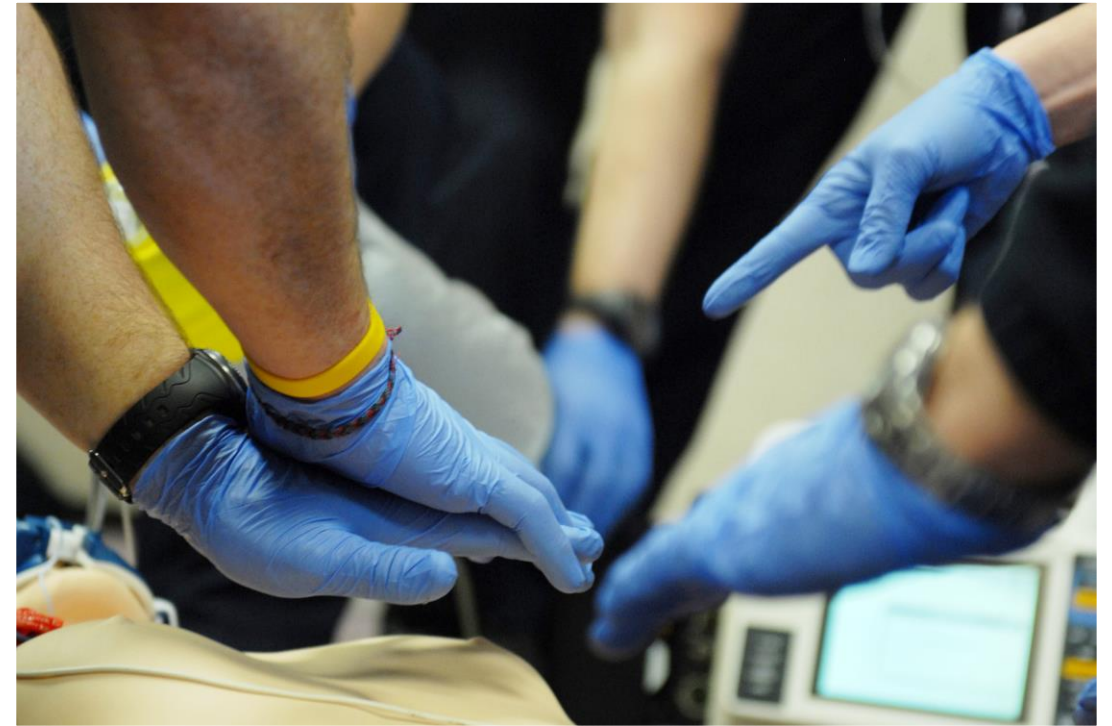

## **Challenge:**

Training large numbers in HP CPR

## **Strategies:**

Visiting stations over 6 months

Ice cream diplomacy

# HP-CPR & TCPR

---

## **Challenge:**

Training large numbers, culture change, sustaining momentum

## **Solutions:**

Help people understand the WHY

Online instruction paired with hands on practice

Feedback

# FIRST RESPONDERS

---

## **Challenge:**

Incorporating different responders – workflow, culture

## **Solutions:**

“People support that which they help to create”

Be flexible
